

Assign Drivers Key to Vehicle

- Select a Vehicle from vehicle list to assign drivers to vehicle.
- After select vehicle assign the driver to vehicle in available list. Select Driver Name, REID/Dallas key and set password, date range and status (Enable/Disable)

The screenshot displays the 'Assign Drivers To Vehicles' interface. On the left is a sidebar with navigation icons for Alarm Settings, Assign Driver Group To Driver, Assign Rfid/dallas Key To Driver, Assign Drivers To Vehicles, Automated Reporting, and Business Trip Rules. The top navigation bar includes 'Assign Drivers To Vehicles'. The main content area is split into two panels. The top panel shows a form for assigning a driver to a vehicle, with fields for 'Select Driver Name', 'Keyless Entry', 'Password', 'Date Range', and 'RFID Status'. The bottom panel shows a table of assigned drivers for a selected vehicle. Red arrows point from the instructions to the corresponding UI elements.

Stack Number	Driver Name	RFID/Dalls Key	Password	Date Range	RFID Status
1	Moly Khanna			29/09/2021 - 29/09/2021	Disabled

Click on save button to save information.

Click on reset button for reset details.

Click on reset button for reset details.

Click on edit button if you want to update record. Details will fill in like driver name, RFID/Dallas key, password, date range and status. After update click in update button to save.
