

To open setting panel click on the settings button in navbar menu.

The screenshot displays a web-based vehicle tracking application. On the left, a sidebar contains a search bar, a table of vehicle data, a 'Daily Activity Log' section, and a 'Tracking' button. The main area is a Google Map showing a residential neighborhood with a red location pin and a yellow address label: '924MIG Velvet 117, The Avenue, Sunshine West, Melbourne, Victoria, 3020, Australia'. A red arrow points from the text above to the 'Settings' button in the bottom right navigation bar. The navigation bar includes buttons for Home, Analytics, Admin, Settings, Help, and Sign out. The footer contains the URL 'https://www.virtuosogstracking.com/MProtektTest/#', the M-PROTEKT Gold logo, and copyright information for VIRTUOSO.

Setting panel will open and in this panel, you can see three tabs => 1. User Settings, 2. Change User Name, 3. Change Password

In User setting tabs you can change setting for following items:

1. API's Date Format
2. Speed Unit
3. Map Type
4. Show Geofence on API Start

Click on Save button after change setting to save changes.

In Change username tab you need to fill existing username and new username to change. Click on Save button to save.

The screenshot displays a web application interface with a 'Settings' dialog box open. The dialog box has three tabs: 'User Settings', 'Change User Name', and 'Change Password'. The 'Change User Name' tab is selected, showing three input fields: 'Existing User Name', 'New User Name', and 'Confirm User Name'. Red arrows point from the text above to these fields and the 'Save' button. The background shows a map interface with a search bar, a table of vehicle data, and various map controls.
