

## Geofence

- You can assign the geofence to the vehicle from this panel, please follow the given steps:
- First select a vehicle from vehicle list.
- Then click on 'Assign' button to assign geofence to the vehicle, it will show checkbox against every Geofences.
- Already assign geofence will come as selected. To assign new one please selects checkbox of that geofence

The image displays two screenshots of a software interface for managing geofences and vehicles. The interface is divided into several sections:

- Left Sidebar:** Contains navigation buttons for "Assign Rfid/dallas Key To Driver", "Assign Drivers To Vehicles", "Automated Reporting", "Business Trip Rules", "Device Setup", "Geofences", and "Inputs And Outputs".
- Top Panel (Geofences):** Shows a search bar and a list of geofences: "test1" and "Test2".
- Middle Panel (Vehicles):** Shows a search bar and a list of assets: "VR400W 042" (Active Last: 27/09/2021) and "VRLK2103 2737" (Active Last: 28/09/2021).
- Bottom Panel (Assign Geofence):** Shows the same geofence list as the top panel, but with checkboxes next to "test1" and "Test2".

Red arrows indicate the workflow: 1. Selecting a vehicle from the "ASSETS" list in the middle panel. 2. Clicking the "Assign" button in the bottom panel. 3. The resulting state where checkboxes are visible next to the geofence names in the bottom panel.

- click on 'Save' button for save the details

The screenshot shows a web application interface for managing geofences. The interface is divided into several sections:

- Sidebar (Left):** Contains navigation buttons for various functions: "Assign Rfid/dallas Key To Driver", "Assign Drivers To Vehicles", "Automated Reporting", "Business Trip Rules", "Device Setup", "Geofences", and "Inputs And Outputs".
- Header:** Displays "Geofences".
- Vehicles Section:** Includes a search bar and a list of assets. The assets listed are:
  - VR400W 7042 (Active Last 27/09/2021)
