

Nearest vehicle search by point

This function provides vehicles information closest to the selected point on map. Please follow the following step:

- In the 'Nearest Vehicle' Menu click on the Point Menu
- Double click on the map point from which you want to see vehicles. Click on OK button on Info window.

The image displays two screenshots of a vehicle tracking software interface, illustrating the steps to perform a nearest vehicle search by point.

Top Screenshot: The interface shows a map of Perth, Australia. The 'Nearest Vehicle' menu is open, and the 'Point' option is selected. A red circle highlights a specific location on the map. A red arrow points from the 'Point' menu item to this location.

Bottom Screenshot: The same map is shown, but a 'Select Point Confirmation !!' dialog box is overlaid on the map. The dialog box contains the text: 'Please confirm your selection to be 'Show Nearest Point''. Below the text are two buttons: 'Yes' (blue) and 'Cancel' (red). A red arrow points from the 'Point' menu item in the top screenshot to this dialog box.

The interface includes a search bar at the top right, a menu bar with options like 'Mobilize/Immobilize', 'Geofence', and 'Nearest Vehicle', and a sidebar on the left with a table of assets and a 'Daily Activity Log' section.
